GLADIOLUS LIST

1932

Guaranteed
Gladiolus
Bulbs

Grown by
DOTENHURST FLOWER FIELDS

Mrs. Charles D. Thomas
HERKIMER, NEW YORK

BEFORE ORDERING---PLEASE READ CAREFULLY

Terms: Cash with order. No order accepted for less than one dollar.

All offerings are subject to previous sale. We make no substitutions.

Prices quoted singly are for bulbs 1½ inches and up. Dozen of a variety for ten times the price of one. Six at dozen rates.

Prices quoted by the hundred are for the standard size, No. 1, 1½ inches and up. Sizes decrease by ¼ of an inch to size 6, which is under ½ inch.

Quotation by 100 for size 2 is 80% of price of size 1; size 3, 65% of price of size 1; size 4, 50%; size 5, 35%; size 6, 20%.

25 bulbs will be sold at 100 rate; 250 at 1,000 rate. 1,000 rate is 8 times the 100 rate.

Postage prepaid on "each" and dozen lots. No orders accepted after May 1st.

We do not forward during severe weather.

Our stock of some varieties is limited and early ordering is advisable. If others than those listed are desired, send for them, we may have them.

Guarantee: All bulbs are sound, disease free, up to size and true to name; will cheerfully replace any bulbs found to be otherwise.

The Gladiolus List will be issued about January 15th each year and will be mailed to all who have ordered bulbs within the two years preceding, to others, gladly upon request.

Glads may be planted from May 1st to July 1st. They love the sunshine. Do not plant in shaded places, nor near foundation wall.

Ground that will grow smooth potatoes is suitable. Thoroughly work in pulverized sheep manure, wood ashes, well rotted manure, bone meal, or a good potato fertilizer. Never allow fresh manure to come in contact with the bulbs.

Plant three inches deep, four or five inches apart in rows. Add soil gradually until they are covered about six inches. Cultivate frequently. Keep free from weeds. Do not allow the ground to become hard or crusted over.

If necessary to water do so thoroughly.

The flower of the Gladiolus is a very useful

flower. It is the finest flower for vases, the best for the sickroom, hospital, church and cemetery, and the most satisfactory for decorations of all kinds.

Cut the stalk in the morning when first bud opens and place in cold water in a vase in the house. Change the water each morning, remove all wilted blossoms, and with a sharp knife, slice slantingly about one-half inch from bottom of stalk each day. Make sure to leave at least four leaves when cutting, to mature the bulbs.

Dig when the leaves turn brown, cut tops off close to bulb and store in light airy place until dried. Remove all old corms and roots, and store in a light, cool, frost-proof cellar in receptacles not over four inches in depth.

THE DOTENHURST MIXTURE

Frequently, in digging and cleaning, bulbs get accidentally mixed and in order that we may keep our varieties pure we put every bulb, no matter how valuable, that gets out of its proper flat, into our Dotenhurst Mixture, and it contains some of the very best, as well as a variety of color and we are confident will give satisfaction.

Per dozen, postpaid.....\$35; per hundred, postpaid.....\$2.50

If Requested We Will Make Up a Mixture for \$4.00 or \$5.00
